DEATH.

On the 11th October, at West Cowes, Isle of Wight, LUCY, wife of Captain George Hopkins, of Hongkong.

The Hongkong Telegraph

HONGKONG, SATURDAY, NOVEMBER 25, 1882.

We have received a copy of the prospectus of "The China Shippers' Mutual Steam Navigation Company, Limited," which has been recently formed with the object of acquiring and working a fleet of high-class steamships to trade between Great Britain and China, Japan, and the Straits Settlements. This new concern, which has been incorporated with limited liability under the Companies Acts of 1862 to 1880, whereby the liability of shareholders does not exceed the value of their shares, proposes to spring into existence with a capital of one million pounds sterling, divided into fifty thousand shares of £20 each; the first issue of scrip to amount to half a million, in twenty-five thousand fully paid up shares. It is stipulated in the prospectus that one pound per share is payable on application, a similar amount on allotment, three pounds per share on the 1st of next March, and the further calls, which are not to exceed five pounds per share, are not to be made at less than three months' intervals from that date. The Board of Directors includes several well-known names in the commercial world, and, amongst others, that of Mr. H. H. NELSON, lately local manager of the Chartered Mercantile Bank, who it will be remembered, was for some time Chairman of the China Traders' Insurance Company, and Vice-Chairman of the Hongkong Chamber of Commerce.

Time will not permit us to-day to deal independently with the *raison d'être* and prospects of this new enterprise as fully as we could wish; however, we may shortly find an opportunity of dealing practically, and at length, with the anticipations sketched out by the promoters. In the meantime we present a summary of the views of the Board of Directors, which are very exhaustively set forth in the prospectus. It appears to be the opinion that there is a large and increasing trade between China, Japan, and the United States—in addition to the traffic between Britain and the Far East already mentioned—which the China Shippers' Mutual Steam Navigation Company would promote and participate in. It is also stated that the distinctive feature of its business of that mutual or co-operative principle which seems to have been applied with such marked success to corporate enterprises in the East, and through the working of which, in this particular

undertaking, the contributors of freight being shareholders, will become *pro rata* participants in the profits of the carrying trade. In illustration of the successful working of this principle, it is considered only necessary to point to the large dividends and returns on contributions paid by the Insurance Offices in China. The promoters of the new shipping Company are therefore confident that its application to shipping will prove equally successful.

A secondary, but highly important end which, it is claimed, the establishment of this Company will secure, is the liberation of shippers from the imposition of conditions adverse to their interests. A liberal course of management, based on the identity of interest of shippers and owners, is promised, and will, no doubt, be pursued so far as circumstances will allow.

It is further stated that the promoters of the Company are merchants, bankers, and others engaged in the Eastern trade, controlling an amount of cargo amply sufficient to maintain a fortnightly line of steamers in active employment; and it has been estimated that this support and the average rates of freight would enable the supporters of the Company and the general body of shareholders to participate in the large profits which the China steam carrying trade is reported to yield. The prospectus points out, that being committed to no kind of contract or undertaking, and unembarrassed by the ownership of costly, but unsuitable vessels, the Company will be free to acquire, under the most experienced advice, by purchase, by charter, and, speedily, by building, a fleet of steamers adapted in every respect to the requirements of the trade. It is further claimed that the advantages extended to shippers by a system which secures to them a *pro rata* return on freight contributions, are so great and so obvious that a progressive increase of the Company's business may be confidently relied on, especially among the Chinese, whose keen commercial instinct, and the confidence in European undertakings based on the mutual principle which a long and favourable experience has taught them to feel, will it is believed, combine to attract and retain their support to the Company.

For the stability and extension of the Company's business, the compiler of the prospectus is of opinion that it is not necessary to point to indefinite prospects or a distant future. The present magnitude of the China and Japan trade (the gross freight of which is estimated at over £3,000,000 per annum) and its natural increase are supposed to afford ample guarantees for both; while the soundness of the mutual principle, and the volume of the business controlled by the promoters and their friends, will provide the most solid bases for the Company's operations.

As a special inducement, we presume, it is stipulated that the first charge upon the Company's profits in each year, after paying all expenses and putting aside a sufficient sum for Depreciation and Boiler-Fund or Reserve, will be a payment to the shareholders of a dividend of 10 per cent on the amount paid up on their shares. Of the balance, three-fourths will be divided ratably among contributors of freight holding not less than five shares, and one-fourth among the shareholders generally. In London, Hongkong, Shanghai, and other large seats of trade, the Company's business will be conducted by its own staff so soon as the necessary arrangements can be made; and as the Directors fully realize the vital importance of having experienced and efficient management, they are making provisional arrangements with gentlemen thoroughly conversant with shipping, and with the working of this particular trade.

It is distinctly stated that no promotion money has been or will be paid, and that all discounts, allowances, &c. will return to the Company.

Broadly stated, the above are the principles on which this China Shipper's Mutual Steam Navigation Company, Limited, will become an important factor in a wide field for commercial enterprise. The prospects, judging from the hopes indulged in by the promoters, appear of a most brilliant character. To use the exact phraseology of the prospectus:—"So far as the promoters are aware, no steam-shipping enterprise has ever been established under such favourable auspices, or on so sure a foundation; and whilst the Company is formed in no invidious spirit of rivalry with existing lines, the promoters are confident of the superior advantages which they enjoy in the prosecution of the trade, and firmly rely on these in submitting their undertaking to the judgment and support of the public." It remains to be seen whether the public will endorse with their support the rosy views of the Directors, and time alone can show if the sanguine anticipations now indulged in are well founded. So far as we are able to judge from a somewhat imperfect and necessarily brief review of the Company's plan of operations, we are rather favourably impressed; however, it is better that we should reserve our remarks until we are in a position to deal practically with the whole business.

Saves the Shanghai *Mercury* of the 18th inst.—The comet was visible this morning for the first time for the last ten days; it has been obscured all that time by the clouds. It has considerably diminished in size and brightness.

We are requested to remind the public that a bazaar in aid of the funds of the Society of St. Vincent de Paul will be held in the hall of the Catholic Circle to-morrow at one o'clock. As the object of this bazaar is a most creditable one, we trust the efforts of the promoters to ensure its proving a success will be fully realised.

We observe from home papers that hostilities are again expected in Afghanistan. According to reliable information received at St. Petersburg, it is expected that an armed conflict will shortly break out between Afghanistan and the Usbeks, a warlike tribe inhabiting Maimane, and whose submission to the Amir Abdurrahman has always been of a purely nominal character.

We take the following sporting paragraph from the Shanghai *Mercury*:—"Presto has been sold for £15, 500 and goes to Foochow per steamship *Pehchihli*. In the same steamer go about fifteen more race ponies: Allegro, Pizicato, Gang Forward and a griffin from Mr. Bill's stable; Wild Wolf, Wild Earl, and two griffins from Wild Harry's stable; there are also Helios and four more from Mr. Henry's stable. The Ewo contingent will probably go by next steamer. Our Foochow friends are likely to have a bumper meeting."

The *Gazette d'Italie*, a Roman journal, learns that the British Government has manifested the intention of occupying the port of Massanah, in the Red Sea. "The ostensible object of this occupation," it adds, "is to establish a coaling station there for English vessels, utilising the rich mines of the Abyssinian mountains; but England really aims at taking possession of that important outlet, besides the commercial key of its vast regions, is of considerable strategic importance." Should this news prove true, the *Gazette d'Italie* remarks that it would be a fatal blow to the Italian colony at Assab.

The *Straits Times* of the 4th instant says:—"Some preliminary proceedings in the action for libel at the instance of Mr. T. Cargill, municipal engineer, Singapore, against the publisher (Mr. J. F. Hansen) and the editor (Mr. J. Carmichael) of the *Straits Intelligence* will occupy the Supreme Court on Monday forenoon, commencing at 11 o'clock." Our Shanghai contemporary the *Mercury*, commenting on this, observes:—"The editor referred to above formerly belonged to the *Courier*. He left this post very suddenly, leaving many enquiring friends behind." This Mr. Carmichael is the person who, after blackguarding Bandmann in grand style both in Shanghai and Hongkong, opened his bosom to the tragic humbug, and became sponsor for a scurrilous article in the *Intelligence* attacking the Editor of the *Telegraph*, when that gentleman was to use Messrs. Bandmann and Carmichael's elegant language "behind the bars." However, we trust Carmichael—who has been slinging mud around in grand style in Singapore—will get safely over his libel difficulties. Our little account against the larrikin we can wait for; it is of a nature which can only be settled at a personal interview.

We append an extract from the *China Mail* which shows how that wonderful Journal creeps out of the responsibility of an ignorant, and maliciously false paragraph which appeared in its issue of Wednesday last. It was authoritatively stated by the religious paper, that an illicit trade in gunpowder was being carried on, through the medium of the steamers of the Hongkong, Canton, and Macao Steamboat Company, between Canton and Macao; and this paragraph, having for its special aim the supply of ammunition for the Triad Society in their supposed machinations against the Chinese Government. The statement was so absurdly ridiculous that we did not even consider it worth while to allude to it; however, the Secretary of the Steamboat Company, deemed it advisable to politely inform the *China Mail* that its wonderful discovery of an illicit traffic and a dangerous conspiracy was all fudge. And accordingly the evening journal "crawls" in the following style:—"Mr. da Costa, the Secretary of the Hongkong, Canton and Macao Steamboat Company, has assured us, no gunpowder or other explosives are shipped by their steamers from Macao. Of course we had not the slightest intention of saying that the Company accepted dangerous goods knowingly, but still goods of this description might have been conveyed in the steamers." Our purpose in writing the paragraph in question was to put the authorities and others interested in their guard, and not to alarm those interested in the Hongkong, Canton and Macao Steamboat Company. We have no doubt that the careful officers of the Company will exercise still greater care in future in the class of goods which they are called upon to carry."

A TELEGRAM from London, published in another place, states that Sir Thomas Wade denies the statement in the *Pall Mall Gazette* that he will not return to Peking. Probably Sir Thomas Wade knows his own affairs best, but as it has been generally understood in well-informed political circles for some considerable time past that His Excellency's return to China was, to say the least, decidedly uncertain, this denial must be taken for what it may be worth.

An inspection parade of the Government and European Volunteer Fire Brigades will be held at the Central Fire Brigade Station at half past three p.m. on Tuesday next, when the steamers of both Brigades will adjourn to the Praya for exercise in squirting, &c. Ladder and fire-escape drill will also be exhibited to the gaze of an admiring native public. Mr. Creagh will doubtless on this occasion initiate the red-shirts into the *modus operandi* of London Fire Brigade movements.

FOR refusal of duty and being drunk and disorderly on board, William Brady, a fireman on the steamship *Enlign*, was sentenced this morning by Captain Thomsen to three days' hard labor. Brady, who joined the steamer in Australia in September, went, it appears, to the Chief Engineer on Thursday in a state of intoxication, and asked for his discharge, saying he would not do any duty, also making use of insolent and offensive expressions. When up before the Marine Magistrate yesterday, Brady was under the influence of fire-water, and to-day he said he had no boots or clothes, and the captain would not give him any, although about £10 was due to him. He was willing to go back to his duty, but he could not work without clothes.—The Captain said he had not given the defendant money or clothes since arrival here three days ago, nor had he asked for either. We certainly think it would not be conducive to either health or comfort to work in a hot engine room in *purlis naturae*, unless one had a hide like the rhinoceros, which evidently Brady has not, or he would not feel the want of habiliments so keenly as he appears to do. We hope the poor man will be provided with an outfit when he emerges from Victoria Hotel.

The *Daily Press* of this morning says:—"With reference to the paragraph in the *Pall Mall Gazette* telegraphed by Reuters, upon which we commented yesterday, we are informed on sufficient authority that so far back as July last satisfactory assurances were received here that Sir John Pope Hennessy would not return to this Colony as its Governor. These assurances, given privately and unofficially, were substantially confirmed by the official announcement that the Governor's leave of absence had been extended to the end of his term. The public therefore need be under no apprehension about the return in any official capacity to this Colony of one who for five years so disturbed its peace and maladministered its affairs. To suppose that Sir J. P. Hennessy will succeed Sir Thomas Wade at Peking, as the *Pall Mall Gazette* seems to suggest, would be to ignore the traditional policy of the Foreign Office, and the suggestion may be dismissed with a snile at the ingenuity which inspired it." Our contemporary's assertion to the effect that it was officially known here in July last that Sir John Pope Hennessy would not return to Hongkong as its Governor, is absolutely false. We are in possession of irrefragable evidence from independent sources that the Governor's prolonged sojourn in England was not decided on until September. Further, we can state that it was the opinion question, and that alone, which caused His Excellency to delay his return to the Far East. The *Daily Press* and its political supporters (if it has any, which is exceedingly doubtful) are quite at liberty to smile at the *Pall Mall Gazette's* ingenuity; but all the "smiling" they can manage to show will not prevent Sir John Pope Hennessy's return to China, and that within the next few weeks, if Her Majesty's Ministers have decided to entrust the settlement of the Opium difficulty to the Governor of Hongkong.

NEWS BY THE ENGLISH MAIL.

The Peninsular and Oriental S.N. Co.'s steamer *Shihy*, Captain A. H. Johnson, with the London mails of the 20th ult., arrived in harbour last evening. We take the following items from the *London and China Express* of October 20th—

Some special plant for boring heavy ordnance has recently been shipped to the order of the Chinese Government.

H.H. Prince Arisugawa, uncle of the Mikado of Japan, after a few days' stay at Vienna, has proceeded to Amsterdam.

The *Mosquito*, a screw composite gunboat, Lieutenant-Commander the Hon. F. R. Sandilands, arrived at Devonport on the 15th inst., and will "pay off" on the 7th prox.

Deputy Surgeon-General A. G. Young, recently promoted, has been appointed Principal Medical Officer of the Woolwich District. Mr. Young served in the Crimea, and was in medical charge of the 2nd Battalion 60th Rifles throughout the campaign of 1860 in China (medal with two clasps).

The *Linnet*, a double-screw composite gun-vessel, 767 tons, 1050-horse power, which was built by the Thames Shipbuilding Company and completed at Chatham Dockyard, sailed on the 16th inst. for China, she having been commissioned for service on that station by Commander Harris. The *Linnet* will relieve the *Zephyr*, Confu, near the light-house, on the 16th inst. The *Zephyr* went to her assistance, and she was got off the same afternoon. The *Superb* is an armour-plated steam vessel of 9,170 tons and 6,580-horse power. She carries sixteen guns, and forms part of the Mediterranean Squadron. She is commanded by Captain Thomas Ward, C.B.

Astret disturbance, which eventually assumed the proportions of a riot, occurred on the night of the 15th instant in Chatham, caused by some fifty blue-jackets from H.M.S. *Constance*, and *Linnet*, ordered for foreign service, who were allowed on shore. A large number of police and marines had to be called out, and after some rough encounters the ringleaders were taken aboard their vessels.

Captain Walter Stewart, R.N., who has been appointed to succeed Captain G. D. Morant in the command of the *Valorous*, served in the Crimean campaign, and in the *Encounter*, 1862-64, in China, being present at several engagements against the Taping rebels in the Ning-po district. At the capture of the pirate fleet in Chusan on the 19th and 20th Oct., 1862, he was in temporary command of the *Harpy*.

A Conference to consider the various schemes proposed for the abolition of the Opium Trade will be held at Queen Anne's Mansions, Westminster, on the 1st prox. Sir Joseph Peace, M.P., Mr. S. Morley, M.P., Mr. Alderman McArthur, M.P., Mr. Richard, M.P., and Dr. D. W. Richardson, F.R.S., are announced to take part in the proceedings. Invitations for the Conference have been issued by the Earl of Shaftesbury.

Messrs. Scott & Co., Greenock, have launched an iron screw-steamer named the *Tatiana*, of 1,800 tons register. Dimensions—Length 272 feet; breadth, 35 feet; and depth 21 feet 6 inches. The engines will be 200-horse power nominal, and will be supplied by the builders. The vessel has been built to the order of Messrs. Swire and Sons, London, for the China trade. She is a sister steamer to the *Whampoa* and *Wootung*, recently built for the same firm by Messrs. Scott and Co. The *Whampoa* sailed for Shanghai on the 13th inst.

Advices from Kuldja report that the chief of the local administration made a tour of inspection in August last amongst all the Tarjan communities dwelling in the district of Kuldja, formerly belonging to Russia, who had previously expressed a wish to settle in Russian territory. He informed them that then was the most favourable time for their proposed emigration; and the Tarjanis replied that as soon as their crops were harvested they would break up their homes and establish themselves within the Russian frontier. This they hoped to be able to do in October or November.

The Wreck Register for 1880-81, recently issued under the sanction of the Board of Trade, shows that the number of wreck casualties and collisions on the coast of the United Kingdom was 1,056 in excess of those of 1879-80, the number shown in the Register being 3,575, and resulting, unhappily, in the loss of 984 lives. It should, however, be remembered that of these 3,575 wrecks only 705 cases involved total loss, and that there was loss of life from only 238, or about 1 in 16 of the vessels lost or damaged. Altogether, 705 of the casualties of the year, the remainder is found to be made up of 1,314 more or less serious and 1,556 minor disasters.

We understand that Lieut.-Com. the Hon. F. R. Sandilands, of Her Majesty's ship *Mosquito*, has been specially mentioned for promotion in connection with distinguished service rendered during the late campaign. The *Mosquito* was on her homeward voyage from China when she was detained for service with Sir B. Seymour's squadron. A party of 100 men, a prominent part in the landing at Chalouf on August 20, being the first to cross the Canal and to hold the position until reinforced by the Highlanders. The *Mosquito* rendered good service on several other occasions, and Sub-Lieut. Story, one of her officers, has been already promoted for gallantry at Chalouf.

Intelligence received at St. Petersburg from Kuldja states that, owing to recent frequent attacks on the part of the Chinese and Khirgise, a portion of the Russian Cossack force now stationed on the Mian River has been transferred to the disturbed districts. Orders have also been given to the Cossacks on the Chorgos River to take note of and prevent all acts of pillage threatened by the Chinese. A corps of observation, composed of natives, has also been formed there for the assistance of the Cossacks. The latter have taken from the Chinese and Khirgise 400 horses and a large number of cattle, and have handed them over to the Tarantches and Dunganis, who suffered by the recent attacks.

General W. E. Napier, who succeeds the late General Townshend as colonel of the 25th Regiment, served with the Borderers for thirteen years, joining them as ensign, and not leaving until he got his majority. General J. A. R. Raines, C.B., who is appointed to the Buffs, received his first commission in the regiment in 1842. He left it the same year to join the 95th. General Raines saw much hard service in the Crimean and Bulfin campaigns, being repeatedly mentioned in despatches. As Brigadier-General he commanded the expedition from Aden into the interior of Arabia in 1865-66, when the troops captured and destroyed many towns and forts, including Ussala, the Fudhail capital, and seven cannon. He was last employed in 1876, in command of a brigade during the mobilisation that took place in that year.

The will (dated Sept. 27th, 1881) of Sir John Small, formerly Chief Justice of Hongkong, who died Aug. 15th, was proved on the 15th ultimo by Dame Clara Small, the widow, John Jackson Small, and the Rev. William Small, the sons, and Peter George Laurie, the executor, the value of the personal estate amounting to over £18,000. The testator bequeathed to his wife £500, and all household goods and furniture, and he makes no further provision for her, as she is already amply provided for. The dinner and tea services presented to him in 1865 by 125 Parsec and Coja (Hindostanee) inhabitants of Hongkong, which, in obedience to the order of the Secretary of State, for the Colonial Department, he afterwards returned to them under protest that

he, being Attorney-General and a barrister in practice was entitled to receive fees and honoraria, and which have since, by the directions of the subscribers, been held upon trust as he should by will direct, he leaves to his wife for life, and then to his children, as she shall appoint. His freehold property, and the residue of the personalty he divides among his children and the son of his deceased daughter.

Captain G. D. Morant, R.N., who has been selected to succeed Captain L. Kelly in the command of the *Achilles* (Channel Squadron), served during the whole of the Burmese war of 1852-53, and in the Crimean campaign. As second lieutenant of the *Cormorant* he took part in the engagements between the British Squadron in China, under the command of Vice-Admiral Sir James Hope, K.C.B., and in the attack on the Taku Forts at the entrance of the Peiho river in 1859, when that vessel and four gunboats were sunk by the enemy (China media). He commanded the *Grasshopper*, gunboat, as lieutenant on the China Station, 1865-1866, in several successful operations against pirates, on one occasion being engaged for six hours with three pirate lorchaes (mounting between them twenty-eight guns), finishing the action by the blowing up of one lorcha and the capture of the other two, taking the pirate chief and twenty-five of his men prisoners, and liberating five cargo junks with a portion of the crew, which vessels had been previously captured by the pirates. For this service he received the special commendation of the Lord-Lieutenant of the Admiralty and the then Minister for Foreign Affairs, Lord Clarendon, and was promoted to commander.

In accordance with the statement made by our German correspondent in our issue of the 6th inst., an official intimation has been conveyed to German shipowners and masters that in future they must be prepared to defend themselves against piratical attacks in the Far East. A circular has been issued by the Minister of Commerce, in which it is stated that in consequence of the recent plundering of the *Occident* in the China seas it is deemed necessary to call attention to the dangers to which vessels navigating or trading in Chinese waters are exposed, and to the necessity of providing, by a careful selection of the crews and by the provision of an adequate and suitable supply of weapons, for the repulse of attacks by pirates. It is admitted that it is the duty of the empire to protect its subjects in foreign parts; but at the same time it is pointed out that it may, on the other hand, be reasonably expected that German subjects shall take such precautionary measures as may appear to be dictated by the existence of well known dangers, and will not wantonly place themselves in a position which obliges them to call upon the State for protection. The Chancellor of the Empire has therefore decided that in future before any steps are taken in the interests of persons who have suffered from piratical attacks in Chinese waters, an inquiry shall be instituted as to the adequacy and completeness of the armament and strength and vigilance of the vessel attacked.

HAIR DRESSING SALOON
HONGKONG HOTEL.
W. P. MOORE begs to inform the Gentlemen of Hongkong and Visitors that he has reduced the price of Hair-Cutting to 50 cents. Having now in his employ three competent Assistants who are always in attendance, he guarantees to execute this class of work, in all its branches, with a perfection which cannot be excelled in any part of the World.

Hair-Cutting.....50 Cents.
Shampooing.....25 Cents.
Shaving.....25 Cents.
Trimming Beards.....25 Cents.

MONTHLY CUSTOMERS TAKEN AT REDUCED RATES.
RAZORS MOST CAREFULLY RE-SET.
Mr. MOORE begs to recommend his GOGO SHAMPOO WASH to the public as unrivalled by any preparation ever produced for promoting the growth of the hair. The basis of this compound is made of soap root; the natives of the Philippine Islands never use anything else for washing their hair; they are never found bald, and it is quite common to see the females with hair from 5 to 6 feet long. By constantly using this Shampoo Wash as directed, you will NEVER BE BALD.

The proprietor offers the Wash to the public entirely confident that, by its restorative properties, it will without fail arrest decaying hair. It completely eradicates scurf, dandruff, and cures all diseases of the scalp. It does not contain any poisonous drugs. By its cooling properties it allays the itching and fever of the scalp, which is the great cause of people losing their hair.

Mr. MOORE has succeeded in being able to put this wash up in bottles without allowing it to ferment, and he will guarantee it to keep any length of time in any climate. [717]

"W. KUHE."

JOHN BRINSMEAD AND SONS' PATENT SOSTENENTE PIANOS.
"I have attentively examined the beautiful pianos of Messrs. John Brinsmead and Sons that are exhibited at the Paris International Exhibition of 1878. I consider them to be exceptional in the ease with which gradations of sound can be produced, from the softest to the most powerful tones. These excellent pianos merit the approbation of all artists, as the tone is full as well as sustained, and the touch is of perfect evenness throughout its entire range, answering to every requirement of the pianist."

THIS DAY.

Our prediction that Banks would reach the high figure of 160 per cent. premium before the end of the present year has been realised even sooner than we anticipated. After we went to press yesterday shares changed hands at 156 for cash, and 158 for December 31st; but this morning offers to buy at 158 cash, and 160 for the end of the year are plentiful; there are, however, no sellers, and the stock may be described as being remarkably firm. Docks are rather in better odour than when we last wrote, a slight demand existing for the scrip at 55 per cent. premium for the end of January. Sellers decline to transact business on these terms. Luzons have been negotiated at 115 for December 31st; and they are now wanted at 114 cash. No other movements have been reported.

4 o'clock p.m.

With the exception of sales in Banks at 160 per cent. premium for cash, and 161 for December 31st, the stock closing very firm with buyers at both these rates—we have nothing to add to our morning report.
